

# Memory Match

## **Instructions:**

1. Split the kids into two groups by grade.
2. Shuffle the cards and lay them out upside down in a 6 x 7 rectangle.
3. The kids take turns flipping over any two cards. If they are a match, they keep the pair. If they are not, they flip them back over.
4. Once all the pairs have been found, the person with the most cards wins.
5. If there is more time, you can combine both sets of cards into one large game.
