

Egg Drop Challenge

Goal: Successfully drop a raw egg from 10 feet above the ground without the egg breaking.

Materials:

- 2 cups
- 3 ballons
- 5 straws
- 10 cotton balls
- 7 rubber bands
- Unlimited tape
- 1 raw egg

Instructions:

1. Get in groups of 3-4.
2. Spend 10 minutes brainstorming your structure, and how it will work.
3. We will hand out your materials, do not touch them until you are instructed to.
4. Now, you may begin. You will have 30 minutes building your structure, and then we will test them.
5. Once you finish, return unused materials, and clean your workspace.
6. Once every workspace has been cleared, the testing will begin!
