

Make a Maze Challenge

Goal: Successfully make a maze, and make your friends solve it with marbles.

Materials:

- Half a poster board
- 10 straws
- 15 pipe cleaners
- 10 popsicle sticks
- Unlimited tape
- 1 marble

Instructions:

1. Get in groups of 3-4.
2. Spend 15 minutes brainstorming your maze, and drawing it out in pencil.
3. We will hand out your materials, do not touch them until you are instructed to.
4. Now, you may begin. You will have 30 minutes to construct your mazes, and then we will try each other's mazes.
5. Once you finish, return unused materials, and clean your workspace.
6. Once every workspace has been cleared, we may try solving the mazes!
